What is the Enhanced Driving Synergy(EDS) program about?

The EDS program is for any licensed driver who wants to improve their confidence in car control, at all speeds and weather conditions.

Our program is a one-day course held at a motorsport facility, to ensure a controlled and safe environment. The day consists of a mix of classroom and individual coaching in your own car.

The on-track segments are provided using small groups of drivers, with similar skill levels, that are well spaced out on the track. A coach is in your car during on-track exercises.

Taking just one day of coaching will improve your skill level dramatically. However, experience tells us that drivers should take this type of course a minimum of every few years, in order to maintain their proficiency in advanced car control.

Some drivers who have taken several of these courses have moved on to regional and national competitive events, as they enjoyed the challenge of using these driving techniques, in a this type of environment and have been very successful.

How will this course benefit me?

To provide you, the every-day driver, with the confidence to avoid an incident on roads in all weather conditions, when confronted with a situation that normally would result in an unpleasant moment. Some other questions that you may think of are . . .

- *Are you nervous driving?*
- *Do you instinctively know what you should do to avoid an accident with little notice or time to think?*
- *Is braking the best option in a panic situation?*
- *Do you know the difference between braking and turning and turning and braking?*
- *Do you know the handling limits of your car?*
- *Do you know how to find them safely?*
- *Do you know how the "other" driver will likely react and what that means to your escape route?*

- *Do you know how to quickly find the best escape route?*
- *Would you like to be a more proficient driver?*

These questions will be answered by taking this course.

All drivers will benefit from our program.

www.drivingsynergy.com

What is the cost?

The cost of a course is a lot less than the repair to your car, if you were involved in an avoidable accident, not to mention the ancillary aggravation accidents cause.

All schools are under \$300.00. For the exact cost of each program visit our website (www.drivingsynergy.com) or review the application form on the back of this brochure.

The fee includes:

- Classroom and in-car coaching
- A comprehensive 'driver handbook'
- A continental breakfast
- A home-style BBQ lunch
- Liquid refreshments throughout the day

What if I am interested in 'High-Level Coaching'?

Drivers interested in one on one High-level coaching, please visit our website and click on the High Level Coaching tab.
